## ABOUT ME

*A results-driven and highly skilled software engineer with over 5 years of experience in BDD and SpecFlow, seeking a challenging position to utilize my technical skills and experience in developing software applications with a focus on testing and quality assurance. Strong engineering professional with a Bachelor of Science in Electronics from University of Kerala*

## SKILLS

- Test Automation
- Proficient in BDD (Behavior Driven Development) and SpecFlow
- Experience with Agile software development methodologies
- Regression Testing
- Test Management
- Embedded Programming
- Excellent analytical and problem-solving skills
- Strong communication and teamwork abilities

## EDUCATION

- ✓ Bachelor of Science  
Electronics (2012 – 2015)  
University of Kerala

## PERSONAL INFORMATION

- Date of Birth: 26th Dec-1993
- Gender: Male
- Marital Status: Single
- Nationality: Indian

## CAREER HIGHLIGHTS

- Many client's appreciations for Automation
- USTAR appreciations.

## CERTIFICATIONS

- Agile Foundation (2019)
- Scrum Basics (2019)
- Advanced Post Graduate Diploma in Embedded Systems & Hardware Testing (2017)

## WORK EXPERIENCE

Automation Test Analyst (4+ year)

UST, Trivandrum (From April-2018)

Experienced Software Tester with a demonstrated history of working in the information technology and services industry.

- Designed, developed, and maintained software applications using BDD and SpecFlow.
- Worked closely with cross-functional teams to ensure software quality and timely delivery of projects.
- Conducted code reviews and provided feedback to other team members to ensure adherence to coding standards and best practices.
- Actively participated in Agile ceremonies such as sprint planning, stand-ups, and retrospectives.
- Worked closely with cross-functional teams to ensure software quality and timely delivery of projects.

## Tools / Technology

Testing Tool	Visual Studio, Postman, Selenium
Defect/Test Tracking Tools	Jira
Database	Mongo DB Server
Scripting Languages	Java, C
Mark-up Languages	C#, HTML, Xpath
Report	Extent
Software process methodology	Agile

## PROJECT EXPERIENCE

### Project – 01 Domain: Banking Credit Management

<b>Name</b>	<b>IDaaS</b>
<b>Role</b>	<b>Manual Tester</b>
Responsibilities:	Understanding and analyzing the software requirements and creating test cases for validating
	Executing test cases and reporting defects in a defect tracking tool.
	Collaborating with developers to identify and troubleshoot defects and issues.
	Participating in various types of testing such as functional testing, regression testing, Smoke testing, and user acceptance testing.
	Conducting exploratory testing to identify defects that may have been missed during test case creation.
	Reviewing and providing feedback on product documentation such as user manuals and release notes.
	Participating in Agile ceremonies such as sprint planning, stand-ups, and retrospectives.

### Project – 02 Domain: Banking Credit Management

<b>Name</b>	<b>IDaaS</b>
<b>Role</b>	<b>Automation Tester</b>
Responsibilities:	Collaborating with the product owner/business analyst to define user stories and scenarios.
	In-sprint Automation
	Designing and writing test automation scripts using test automation frameworks.
	Designing and implementing automated tests using SpecFlow, based on the scenarios defined by the product owner/business analyst.
	Maintaining the test suite by updating and expanding the automated tests as needed.
	Analyzing test results and identifying defects or issues.
	Working with the development team to investigate and resolve defects or issues found during testing.
	Participating in code reviews and providing feedback to the development team to improve the quality of the code.
	Ensuring that the automated tests are executed regularly as part of the continuous integration and delivery process.
	Providing regular reports on the status of the testing effort to the project manager and other stakeholders.
